

CLAMORING FOR VENGEANCE

City of Sofia Greatly Angry With Turks.

KASTORIA WIPED OUT.

A Population of About 10,000 People Also Reported to Have Been Killed.

Sofia, Sept. 18.—The Bulgarian capital was in a state of suppressed excitement this morning. A report received yesterday and confirmed today that the entire population of Kastoria numbering about 10,000 had been wiped out by Turks, has stirred the population, and Macedonian sympathizers, of whom there are thousands, are today clamoring for vengeance on the Porte.

It is likely that a declaration of hostilities against Turkey will be made. Later reports state that the town is still burning and that the massacre of the inhabitants was said to be horrible beyond description.

REPORTS UNDERESTIMATED.

Of Turkish Atrocities in the Balkans Says Correspondent.

London, Sept. 18.—The Belgrade correspondent of the Westminster Gazette wires his paper stating that executive investigation on his part not only tends to confirm the reports of Turkish atrocities in the Balkans but shows that they have been underestimated.

POWERS TO INTERVENE.

Proposed Occupation by Russia and Austria.

Berlin, Sept. 18.—The military occupation of Macedonia by Russia and Austria is thought here to be the only expedient sufficient to prevent war between Turkey and Bulgaria. This suggestion does not originate in Berlin. It reached here some days ago as an inquiry from Vienna to the foreign office as to what Germany thought of the two power intervention, such intervention to be barely long enough to restore order and reorganize the Turkish constabulary properly. The inquiry, it was assumed, rested upon a Russian-Austrian agreement. The identical question will probably be put to all the signatories of the Berlin treaty.

The German reply appears to have been conditionally affirmative. Since the territory to be occupied was Turkish, Turkey's consent ought to be secured. Germany, then, would have no objection. But Turkey has not agreed to this, the reason put forward being that Turkey's prestige is engaged, the insurance having gone too far for Turkey to withdraw. She has been told she must put down the rising promptly and was doing so. It was now nearly stamped out, and the ports felt entirely competent to finish the work and also to defend itself against Bulgarian aggression.

BULGARIANS ARE ADVANCING.

A Band of 4,000 Preparing to Enter Turkey's Macedonian Territory. Constantinople, Sept. 18.—The Porte has received confirmation of the reports that large bands of Bulgarians and Macedonians, one of them estimated to number 4,000 men, have been preparing to cross the frontier near Kostendil, forty-three miles from Sofia. Official circles here have been greatly irritated by the representations made to the Porte by the representatives of the powers regarding the excesses committed by Turkish troops. It is pointed out that the powers themselves advised Turkey to suppress the insurrection energetically.

Outrages Continue in Beirut.

Beirut, Syria, Sept. 18.—Business is still suspended, notwithstanding the change in the governorship, and it will take a long time to restore confidence. Robberies and murders are the order of the night if not of the day, and the feeling of insecurity on the part of both European and native residents is very great. Some form of outrage against the foreign and Christian population occurs daily. The Christian refugees in the Lebanon mountains are returning very slowly and in small numbers.

Fresh Proposals Are Made.

London, Sept. 18.—It is announced here that Russia and Austria have made fresh proposals to Great Britain which if carried out will, it is hoped, restore order in Macedonia.

Message From Minister Lelshman. Washington, Sept. 18.—A long cablegram from Minister Lelshman, at Constantinople, has been received at the state department. It was sent to the president.

FINE APPLE ORCHARD.

Charles Holmes of Charlotte Will Net Over Ten Thousand Dollars.

Burlington, Sept. 18.—This is supposed to be the off year for apples in Vermont. In spite of this fact there is one orchard in this section that is a notable exception. Charles Holmes of Charlotte has a field of more than 5,000 trees that it is expected will turn off at least 5,000 barrels of fine fruit at one harvest. Fifty men are already at work picking and sorting them and every day a car load of barrels are shipped to the New York market.

The sight of this vast orchard with its burden of fruit causes crowds of visitors to come for miles to see it. Many of the trees are so loaded down that the lower limbs have to be supported to keep them from breaking.

It will take the large force now at work nearly a month to complete the work. The barrels in which the apples are packed will cost the neat sum of \$1,000, and the net revenue from the crop will be over ten thousand dollars. The apples are largely the famous Rhode Island Greenings. The crop elsewhere in this section is considered about one-half.

TWENTY-NINE BUILDINGS.

Great Amount of Construction at Fort Ethan Allen.

Burlington, Sept. 18.—The military post of Fort Ethan Allen at the present time is undergoing a great change, 29 new buildings are under construction and work will shortly begin on six more. The artillery quarters, which were the first, on which work began are fast nearing completion and within two months will be occupied. As soon as the old artillery quarters are vacated two more troops of cavalry possibly from Fort Sheridan, Ill., will be sent to the post.

E. H. Denniston & Co. of Syracuse, N. Y., who are erecting the two quarters, two stables and the bachelor officers' quarters have done excellent work on these buildings considering the fact that their material has been considerably delayed.

After much controversy as to whether it would be Bellows Falls or Barre, Bellows Falls was decided on. The meeting was brought to a close at 10:30 o'clock and a message expressing the congratulations of the convention was sent to B. F. Healey of Barre, president of the society, who was unable to be present at the concluding meeting.

Wells River, Sept. 17.—Two men were relieved at the railroad station in this place yesterday by pickpockets. Over 1,000 people were trying to crowd on board the special train for the St. Johnsbury fair when the nimble-fingered fellows began their work. Mr. Graham of Bradford, formerly an engineer at Wells River, lost \$180. He had left home with \$5 and drew out \$175 at this place. Another whose name is unknown claims he lost \$150. They did not miss their money until they got on the train.

AUTO VICTIM STILL ALIVE

Dr. J. M. Allen is Suffering Severely.

FUNERAL OF LAMPHIER.

French Carrick, a Spectator, Had One Leg Broken in Addition to Other Injuries.

St. Johnsbury, Sept. 18.—Dr. John M. Allen, who was so severely injured in the automobile race at the Caledonia county fair grounds yesterday forenoon, is lying at the Brightook Hospital in a precarious condition, although his physicians have strong hopes for his recovery. He passed a comfortable night, but is suffering severely this forenoon.

The extent of his injuries includes both legs broken above the knee, one arm dislocated at the shoulder and the other made numb, also a broken nose and a laceration of the face.

French Carrick's injuries are more serious than at first reported. In addition to the injury to his face and one eye he sustained a broken leg.

It is reported that on the evening previous to the race that Dr. Allen made the remark jokingly that he would "win the race or die in the attempt." That he was determined to win was evident to the spectators. From the very start of the first heat of Thursday morning he set a terrific pace and led his competitors by considerable distances until the accident.

From one source comes the information that the accident was caused by Dr. Allen's looking around to see how far back his competitors were, and that in merely a second of time he lost control of his machine causing it to make the plunge over the embankment. The track at the fair grounds is a half mile one, and the automobilists were making the turn before completing the first half mile of the heat when the race came to such a fatal termination.

Previous to the race Dr. Allen, it is said, went to a foundry, and had the steam gauges of his machine removed.

The funeral of Herbert Lamphier, the young man who was killed, will be held tomorrow afternoon, Rev. A. F. Walsh of the Universalist church being the officiating clergyman.

FROM JAIL TO HOSPITAL.

Frank Bertach in a Serious Condition in Burlington Hospital.

Burlington, Sept. 18.—Frank Bertach of Newark, N. J., placed in county jail September 4 on complaint of New Jersey parties that he had wrongfully converted money held by him in a fiduciary capacity and whose mental condition was at the time questioned, was yesterday removed to the Fanny Allen Hospital for treatment. Bertach has every appearance of being a very sick man, some thinking that he has consumption. His pulse has been at an abnormal rate per minute and by mutual agreement of counsel it was decided that the place for him was at the hospital where he could receive the treatment that his alarming condition demands.

HOTEL PROJECT FAILS.

St. Albans People Give Up Prospect of a Weldon House.

St. Albans, Sept. 18.—The project of again rebuilding the Weldon house was considered at an informal meeting of a few of the business men, which was held at the Owl club yesterday afternoon. Messrs. A. W. Savin, Hayes Longue and F. H. Chester of Boston, representing a syndicate interested in hotel projects, were present with plans and propositions for the work. It was the impression of several of those present that the requirements of the promoters could not be met and the matter will probably be laid away.

EVERETT HOOD MOVES.

Thinks It One of the Most Important He Has Made.

Everett Hood and wife moved yesterday. Now ordinarily there would be little of importance to chronicle in a mere moving. But it is different in this case. Mr. Hood has a tendency to move quite often, and the times are not confined to spring and fall, although in this case it happened to be a fall moving. And when he does move it is done with a great eclat.

This time was no exception to the rule as Mr. Hood assured a Times reporter. In fact to his mind it was the most important move he has made. To begin with, there was one unusual feature in that his house was drawn by the city automobile. The house rests on wheels. The start was made from Summer street where the Hoods have been familiar neighbors for some months. The route along the line of the procession resembled the streets on a circus day.

As the city automobile "puff, puff" its tortuous way down Summer street, thence to Main, drawing its peculiar freight, it was greeted with the greatest enthusiasm. Mr. and Mrs. Hood all the time returning the salutations of their friends. It is estimated that ten-eighths of the boys of the city witnessed the moving.

After a snail-like trip which occupied a good part of the afternoon the procession brought up with a jolt near Hotel Milano on North Main street. There will be the Hood residence for a time, but Mr. Hood says he is making arrangements for another moving.
